Degree:	Master of Science	Student ID number:	824718
Subject:	Data Science	Examination version:	Winter semester 2018/19

Transcript of Records *(Translation of the German-language original.)*

No./Code	Modules/Examinations and academic performance in the subject: Data Science	Semester	Status	Attempt	SWS	CP Achieved/ Required	Grade
Compulsory Modules			PV			24/48	
MATVMD837	Statistical Data Analysis		BE			9	4.0
517301	Written exam	Winter 25/26	NB	1			5.0
517301	Written exam	Winter 25/26	BE	2			4.0
517311	Lecture/Recitation course: Statistical Data Analysis	Winter 24/25	BE	1	6		Pass
INF-DS-C1	Machine Learning		PV			0/9	
557103	Lecture/Recitation course: Intelligent Data Analysis and Machine Learning I	Summer 24	BE	1	2		Pass
INF-DS-C2	Data Infrastructures and Software Engineering		BE			6	2.3
557112	Written exam	Summer 25	BE	1			2.3
557115	Lecture/Recitation course: Research Software Engineering	Summer 25	BE	1	2		Pass
INF-DS-C3	Data Science and Business Analytics		BE			9	2.7
557121	Lecture/Recitation course: Advanced AI-based Application Systems (AIBAS) - Data Science and Business Analytics	Winter 24/25	BE	1	4		Pass
557122	Written exam	Winter 24/25	BE	1			2.7
INF-DS-C4	Applied Data Science		PV			0/6	
557132	Lecture/Recitation course: Bioinformatics of Biological Sequences / Evolutionary Genomics	Winter 24/25	BE	1	2		Pass
Elective Modules - Research Modules			BE			15	
INF-DS-RMB	Research Module B		BE			15	1.7
557152	Project: Social Media Research Project	Summer 25			2		
557153	Portfolio examination	Summer 25	BE	1			1.7
Elective Modules - Advanced Modules			PV			0/15	
INF-DSAM6A	Advanced Applied Data Science A					0/9	
557221	Lecture: Advanced Natural Language Processing	Winter 25/26			2		
557222	Recitation course: Advanced Natural Language Processing	Winter 25/26			4		

Legend: AN = registered; BE = completed; PV = area/module not yet completed; NB = failed; EN = irrevocably failed; CP = credit points; SWS = hours per week per semester

No./Code	Modules/Examinations and academic performance in the subject: Data Science	Semester	Status	Attempt	SWS	CP Achieved/ Required	Grade
INF-DSAM9	Computational Foundations of Data Science		PV			0/6	
557251	Various formats: Reasoning with Large Language Models	Summer 26	AN	1	4		
Credit points achieved (not including master's thesis)		39	of	90			

39 out of 120 credit points to be achieved have been awarded to date. The current average grade is 2.5.

The number of credit points earned to date and the calculation of the current average grade are based on the current status of modules completed so far. This document does not take into account any potential allocation of elective modules relevant to the final degree or any weighting specifications for the calculation of the final grade.

This transcript of records was issued electronically and does not bear a signature.

The information in this transcript is subject to final verification with regard to accuracy and completeness.
